

Stephanie Kwok

Experience

Creative Artists Agency

Full Stack Mobile/Web Developer

December 2018 - Present

- Served as lead developer in a cross-functional team to architect and develop an internal employee website.
- Regularly met with non-technical teammates to demystify technical complexities.
- Rewrote a major feature of the agency's most-used application from Angular to React.
- Led effort to secure personal data in the agency's sports client management application in compliance with GDPR.

ISBX

Software Engineer

November 2016 - December 2018

- Researched & led development of the company's first React app.
- Outlined schema architecture, API paths, app structure, and created documentation as team lead for a consumer product catalog.
- Improved adherence of a telemedicine app to HIPAA security requirements by 70%.
- Worked closely with clients and stakeholders to anticipate users' needs and iterate quickly.

Projects + Activities

- **Dramarama** (Web App, In Wireframing Stage): Fantasy sport style game in which players draft characters from on-air Korean dramas to their team and compete for points throughout the season.
- **Women in Science Dedicated to Mentoring**, Founder (January 2015-September 2015): Founded multi-disciplinary club at UC Irvine with the mission of mentoring fellow women in the sciences. Started a partnership program with Girls, Inc. of Orange County.
- **What Happens to Your Brain on the Way to Mars**, Co-author (May 2015): Co-published paper in Science Advances.

Education
